## Μini-σαρωτής

Handy and robust FRIAMAT mini-scanner for reliable reading of fusion and traceability barcodes. With handy scanner bag for storage. Can be used for all current FRIAMAT electrofusion units in this product range, elderly units on request.

### Crusial difference

Having the correct tools to perform installation on site makes all the difference. We see ourselves as specialists in the electrofusion of HDPE piping systems, so our development work has also included equipment and accessories for your needs

from the very outset.

We know exactly what matters and what is needed in the field, and we can offer you a range of equipment tailored to the daily challenges encountered on the building site: Put your trust in tools that produce the perfect results.

### Good reasons for using the FRIAMAT mini-scanner:

Handy and compact mini scanner for FRIAMAT fusion units

Reliable and non-contact reading of fusion and traceability barcodes (ISO 13950; ISO 12176-4) as well as welder, supervisor and remote start passes

Robust design, suitable for construction sites and sunlight

With practical pocket for storage
